Parent Pay: The Child Care Subsidy EBT Card

The child care subsidy EBT card is an exciting new reform planned for the Wisconsin Shares program modeled after the private pay, free market system.

The EBT reform will allow parents to have an electronic benefits transfer card authorized with their approved child care subsidy. This approach represents a much better management system than the current method, where the state makes the child care payments directly to providers without parents having any involvement or oversight of the billing process.

Under the EBT Parent Pay model, a very important transformation will take place. With the use of an EBT card, the customer relationship shifts from one that is between the child care provider and the state, to a relationship that is between the child care provider and the parent. This shift will empower and promote parental responsibility by having parents directly involved in the negotiation of child care payments for their children.

The child care subsidy EBT card will also serve as a strong fraud prevention tool by bringing the Wisconsin Shares system out of the technological dark ages. The new system will combine overall fraud policy with new state-of-the-art technology, rather than the current method of layering outdated policies on to new technology and hoping that the two will somehow work together to prevent fraud.

kev siv no, FIS yuav xa ib daim ntawv cog lus tawm rau cov Neeg Zov Me Nyuam. Yuav kom koom tau rau hauv Wisconsin Shares qhov kev pab cuam them nyiaj zov me nyuam, cov Neeg Zov Me Nyuam yuav tsum kos npe rau FIS daim ntawv cog lus thiab muab cov lus qhia kom paub txog koj lub tuam txhab cia nyiaj rau FIS. Qhov no yog ib qho yuav tsum tau ua kom thiaj tau txais peev nyiaj pab uas muab xa raws EFT (Electronic Funds Transfer).

1. Cov neeg zov me nyuam yuav pom cov nyiaj them tuaj rau lawv sai dua thiab yuav muaj cuab kav saib tau cov nyiaj them nyob online.
